

"I Am So Disappointed"

Just the thought of you got me through my darkest days
Knowing you were there made me think that maybe I could change
You gave me hope you gave me faith but then you took it all away
I waited for the plans we made but all of them they never came

Em C
I am so disappointed
Em C
I believed in you for so long
C G
I thought I was the lucky one
C G
You said you were gonna be someone
C G
I thought I hit a home run
D
Til you let me down

You'd come home really late and I thought you had your reasons
Waiting for you all the time gave me something to believe in
You said that you would wait and I told you I would stay
I thought that you could save me and I never thought I'd say

Chorus

I want something to believe in I just want some better days
I wish these past few months could all just be erased
I tried so hard to change your mind I tried so hard to make things right
I stood by you all the time and now I finally realize

Chorus x 2
