

"I looked at you like a mirror"

Capo 5

Verse 1:

G C x 3

He said you can trust me

He said you can love me

I said we can try

Am D G

I thought I saw myself

When I looked into your eyes

Chorus:

G D Am C

I looked at you like a mirror

And I saw what I wanted to see

Big brown eyes a pretty face and

All the best parts of me

I looked at you like a mirror

I thought I saw you looking back at me

But it was my own reflection

And I'm finding it hard to believe

Verse 2:

The sun was always shining when you were near

The things you said were things I wanted to hear

I thought that my love was true

I never had any doubt in my faith in you

Verse 3:

I thought that you were a better man

I thought you were my better half

I always believed in you

My mistake I thought you believed in me too

Bridge:

Em C B Em

You're not even real

You're just a fantasy

I spent all these years

Believing what I wanted to see
