

G Bm Em C

How can I stay away for good  
How could you leave when I thought you never would

Your words are so careless  
But I want so bad to believe you  
Maybe you say what you want  
Cuz you know that I'd never leave you

Your words don't mean anything at all  
You'll walk out the door if you want to  
Forgot all the things that you said  
But you know that I adore you

How can I stay away for good  
How could you leave when I thought you never would

You knew that you didn't care  
But you know that I always did  
You should've said no that night  
But you put yourself first again

You always know what to say  
Just want want I want to hear  
Come around so many times  
And then you disappear
