

“Lost on You”

Capo 2

Verse 1:

G D Am C

Your eyes shine brighter than the sun
And I could lie in your arms forever

I can't imagine anyone
Who makes it so easy to feel like home

Chorus:

G D

But all my love is lost on you

Em Bm C

And though I try to hide it all away

I just give and you just take

And I showed up a little too late

Verse 2:

I thought that I could change you mind

Cuz I'm a fool who got behind

The idea that love would save me

And you would see that I'm the one

Bridge:

All my love is lost on you

All my love is lost on you

I hope you find what you were looking for

I hope that I can close this door

cuz

Chorus

G D

All my love is lost on you

Em Bm

All my words fall on deaf ears

C G

And in your eyes are all my deepest my fears

C D

But I could die in your arms right here

All my love is lost on you

Every time I find someone new

I wish that they looked just like you

I hope one day I'll make it through
