

"Pick up the Pieces"

C G Em C

There's no pieces left to pick up  
And nothing left to pray for  
There's no reason not to give up  
It's too late to start over

Am C G D

What am I supposed to do now  
How can I pick up the pieces  
What am I supposed to believe  
When you said you would never ever leave

**Verse 1:**

What did I do to deserve this  
You hit so hard with the words you say  
But every curve every piece of you  
Makes me want to try again

**Verse 2:**

And you haven't got a clue  
How in love with you I was  
Just to feel you in the darkest night  
You shine brighter than the sun

**Verse 3:**

It went so quick  
from heaven to a living hell  
I never thought I'd hear you say  
Goodbye, I wish you well
