

The One That Got Away
By Ava Burnham

[G C/ G C/G C D] x 2

Verse 1:

I thought I had you
Right in the palm of my hand
I always thought you'd be the one
And I understand you
When you say you found someone
Someone who's just like you

Chorus:

Em/Bm/C/G D
And though you're standing
Right in front of me today
I can already tell I can already say
You're the one that got away

Verse 2:

They say things happen for a reason
But now I'm not so sure
Not like I was before
Cuz I would spend some time with you
Or my whole life with you
Wait all night outside your door

Chorus

Verse 3:

And still I see you in my
dreams every night
But I wake up alone
But if you want me
All you gotta do
Is just let me know

Chorus

Em/Bm/C/G D/C
And I was planning
To tell you you should stay
But the smile on face when you call her name says

You're the one that got away
You're the one that got away
